Angel Henry expressed her concern of the ordinance that does not allow her husband to park his semi-tractor in a residential area. She stated that he would like to have the tractor close to home to keep a watch on it and be able to plug it in the winter. He would also try to be respectful to his neighbors by parking it up on the driveway and driving away quietly as possible. She suggested maybe a special permit. Chief Zabel said he would also like to see some modifications to existing ordinance. It was noted that this issue could be an item for review as part of the ordinance recodification. Morgan requested that this item be put on the next month's agenda for further Council discussion.

Schmidt requested an update on the rent for the next meeting.

Schmidt stated that the CMAR was a wonderful report with the exception for the Grade C on the effluent quality section. DPW Carroll stated that there were just two (2) months in which the phosphorous limit had been exceeded.

Reuter had inquired “What is a PUD?” It was explained as a unique situation that does not meet any of the existing categories so certain restrictions are created to meet the needs of the situation. Schmidt cautioned about “starting down the path” of allowing PUDs in which there are several other situations in the City that fit into this type of zoning.

**9. Golf Course Report**

Golf Course Manager Blanke briefly reported on the following:

- Course Maintenance-Fairways and greens have been fertilized which are coming along well.
- Clubhouse Remodeling-Remodeling nearly complete with the flooring yet to be finished. It has turned out well and has a good feel.

Ihm and Crubel both complimented the noticed course and clubhouse improvements.

**10. Proposed Business Incentive Plan**

He stated that he hopes that the plan would help fill empty storefronts and expand existing businesses. The funding would come from the City from additional taxes generated from the Wright Block building rehabilitation and the program would be administered in cooperation with the Chamber of Commerce.

LaBudda thought that this item should be discussed further on next month’s agenda.

**11. Council Vacancies**

Interim Administrator/Clerk Kurihara briefly reviewed his memo on the ten (10) interested candidates and options on filling the vacated Council seats such as holding a special meeting to conduct interviews. He also reviewed the sequence of appointment events that must occur for the Council to maintain a quorum.

Without any further delay, Motion by Morgan, second by Ihm to appoint David Varnam to the seat of Aldermanic District 4 vacated by Jay Janssen. Motion carried four (4) to two (2) by roll call vote with Crubel and LaBudda voting no.

Schmidt expressed concern of awarding a ¾ million dollar contract to a contractor in which Strand stated in their enclosed correspondence that they had not had any experience with and therefore was unable to comment on their performance with other projects.

Motion by Schmidt, second by Ihm to approve the low bid of Midwest General & Mechanical Contractors, Inc., Highland, WI of \$723,572 for Wastewater Treatment Plant Improvements contingent upon approval of financial status and performance respectively by the Interim City Administrator and City Engineer. Motion carried unanimously by roll call vote.

**6. Purchase Orders and Expenditures**

Motion by Ihm, second by Schmidt to approve expenditures totaling \$339,750.07. Motion carried unanimously by roll call vote.

**7. Reports from Commissions and Committees**

- a. Golf Course-Minutes of 6/13/13 included. Schmidt stated that the Committee had a good meeting and is in need of a replacement for Steve Sisley, who wants to resign. Also noted that there was a lot of discussion about resurfacing the parking lot. He would like the City to look into the cost of replacing the lot this year with funds possibly coming from the paving budget and have further discussion of this item next month.

**8. Request to Waive Building Permit fees**

Interim Administrator/Clerk Kurihara explained that he had received a letter from the School requesting the City to waive the project permit fees related to the heating project at the elementary school, however; the City ordinances currently don't allow the waiving of building permit fees and if the Council wishes to grant the School's request then an ordinance amendment would be required.

There was no action or discussion to amend the City ordinances.

**9. Encroachment Easement**

Request has been withdrawn.

**10. Ordinance 7.05 Parking Limitations**

Interim Administrator/Clerk Kurihara briefly reviewed the enclosed memo that included the existing ordinance that does not allow the parking of commercial vehicles in residential areas and the background on how it was created.

This item is being brought forth for further discussion in response to Angel Henry's request to review this ordinance at last month's meeting.

Mayor Wehrle allowed the following summarized public comments into the Council discussion:

- Amy Knox-Resides on Weber Parkway, along with the Henrys, is concerned along with other neighbors about any changes to the existing ordinance without any further clarification. Stated she has a petition with 14 signatures opposing semi-tractor parking in the area with the concerns of public safety and property value decline.
- Angel Henry-
  - Has one of the longest driveways in the subdivision and the tractor would only be parked there on the weekends. Don't see it as an eyesore or as a detriment to property values. It is an inconvenience to park it elsewhere.
  - In response to an incident where a truck rolled into a tree, she stated that it was a pickup truck that her son forgot to put into park.
  - Also they do not let their semi-tractor idle.
- Amy Knox-Also felt the ordinance was vague especially the commercial trailer provision.

Attorney Infield stated that he felt the ordinance is precise to the type of commercial trailers prohibited which had been written by the previous City Attorney John McNamara.

Schmidt commented that this ordinance does not need changing since it is for the whole city and not one specific situation.

There was no action to make a change.

**11. Business Incentive Plan**

Interim Administrator/Clerk Kurihara stated that he had put this item on the agenda for further discussion and direction on whether the Council wants to proceed with the concept on business incentives that Bruce Fritz had presented last month.

Bruce Fritz commented that his idea is to create a way to attract more new businesses. He further mentioned that his plan is based on a formula that would consider businesses with at least three (3) full-time employees and have funds available only after a business was in the city for at least a year.

Olmstead wondered if a new business handling similar items to an existing business would have an advantage.

Varnam had thought it is a good concept but expressed concern over the Chamber of Commerce solely overseeing the program while the City pays for it.

LaBudda said that he liked the idea structurally but had a problem with it politically with the common drumbeat that government needs to stay out of the way of business.

Schmidt favored the idea since the City will bend over backwards to help a business locate in the business park but does nothing to assist retail.

Morgan wanted to limit the amount of available funds for the first year to \$10,000.

Motion by Morgan, second by LaBudda to approve directing the Administrator and Attorney to draft a City prepared version of the plan for further Council review. Motion carried six (6) to one (1) by roll call vote with Morgan voting against.

**12. Reinstatement of a Personnel Committee**

Mayor Wehrle indicated that he had brought this item for consideration as requested by Alderperson Morgan.

Morgan stated that he had a concern of having just the City Administrator handling most all of the personnel issues.

Interim Administrator/Clerk Kurihara mentioned that a new ordinance would need to be passed to create a Committee along with an amendment to the City Administrator ordinance.

Some members felt that discussion of this item was not necessary at this time; however, this item could be reviewed after the new Administrator has been here for a while.

No action was taken.

**17. Director of Public Works Vacancy**

Interim Administrator/Clerk Kurihara stated that the Public Works Director position will become vacant due to Jerry Carroll submitting a letter of resignation effective June 28. This position is appointed by the Mayor and confirmed by the Council.

He asked if the Council wanted to fill the position and how to proceed.

A couple of alderpersons assumed that the position would be filled and that it would make sense to start the process as soon as possible.

A consensus was reached to have the Interim Administrator prepare a sample job announcement with a salary range for Council review and approval.

**18. At-Large Member Vacancy**

Interim Administrator/Clerk Kurihara referred to his memo that listed the remaining interested candidates to fill the last vacated seat by Jennifer Crubel, who had resigned from her position last Friday.

Kevin Koester, who was nominated last month to fill one of the vacant seats but was not approved, thanked the members who had supported him and presented Varnam with his resume so that he knew who he was.

LaBudda noted the method of appointment to fill the vacancies was not satisfactory to some members of the public.

Motion by Reuter, second Ihm to appoint Pete Hoffman to the seat of At-Large Alderperson vacated by Jennifer Crubel. Motion carried unanimously by roll call vote.

**19. Close Session**

Motion by LaBudda, second by Morgan to convene to close session at 7:55 p.m. for the purpose of considering employment, promotion, compensation or performance evaluation of any public employee over which the governmental body has jurisdiction or exercises responsibility in regards to employment agreement for City Administrator and Director of Public Works position (Wisconsin Statutes 19.85, P1, c) and for the purpose of deliberating or negotiating the purchasing of public properties, the investing of public funds, or conducting other specified public business, whenever competitive or bargaining reasons require a closed session in regards to the selling of Lot 5 in the Arrow Ridge Business Park (Wisconsin Statutes 19.85, P1, e). Brian along with Administrator Winger and Clerk Kurihara noted that the City's debt load was comparable to other cities such as Prairie du Chien and Center Point, Iowa.

Brian also proposed to the Council as to whether they wish to increase the Sewer Revenue Bonds to cover a project cost planned for 2015. He had stated the City likely would not take revenue bonds for this cost and by adding the amount to the bonds now, the City would not have to place the cost on a general obligation debt.

Next month, the Council will approve these bond sales with the proceeds being wired to the City around the 10<sup>th</sup> of September.

He stated that he had also signed the petition as he felt that there was a legitimate traffic concern especially with traffic that exits the Middle School and school children walking on Linden Street. He further stated that a four-way stop would slow down traffic in all directions which would make the intersection safer.

A few members felt that a four-way stop was a good idea and well-needed at that intersection.

Reuter; however, expressed concern with having traffic stopping at the intersection especially during the winter months. Chief Zabel replied that he did not know if stopping would be an issue or not but regardless traffic would slow down.
